Letter from the Interim Fire Chief

2021 yielded the highest call volume in the department's history. The hard-working men and women of the Newark Fire Department responded to a total of 12,374 calls which was almost a nine-percent increase from the previous year.

The Newark Fire Department continued to "answer the call" through the expanded circumstances resulting from the prolonged Coronavirus pandemic. We were able to continue providing the highest level of service to our community while ensuring that the safety and welfare of our personnel remained paramount.

Station 5 at 950 Sharon Valley Road was opened in late 2019. This historic and much needed fire station fulfilled the needs of community as anticipated. After one year of measuring the new station's impact, it was confirmed that Station 5's response area is the second busiest within the city. Station 5's impact reduced response times and also minimized the need for our mutual-aid partners to respond into the city to assist us. Additional technology, such as our records management system, was implemented division-wide in the form of the ESO software platform.

Our Division also acquired much needed improvements to the fleet. With the support of Mayor Jeff Hall and his administration, we were able to purchase a new command vehicle as well as a new ladder truck. In late 2021, the department placed a 100' Pierce Aerial truck in service at Station 1. The new ladder truck with the latest technology replaced a 26-year-old unit that was no longer capable of providing the service needed within our community.

In closing, I hope that the information provided in this 2021 Annual Report will provide the necessary information about our department operations and administration. If you have any questions or concerns, please feel free to contact department headquarters at (740) 670-7650 or email me at bmetzger@newarkohio.net.

Respectfully,

Brandon Metzger

Interim Fire Chief

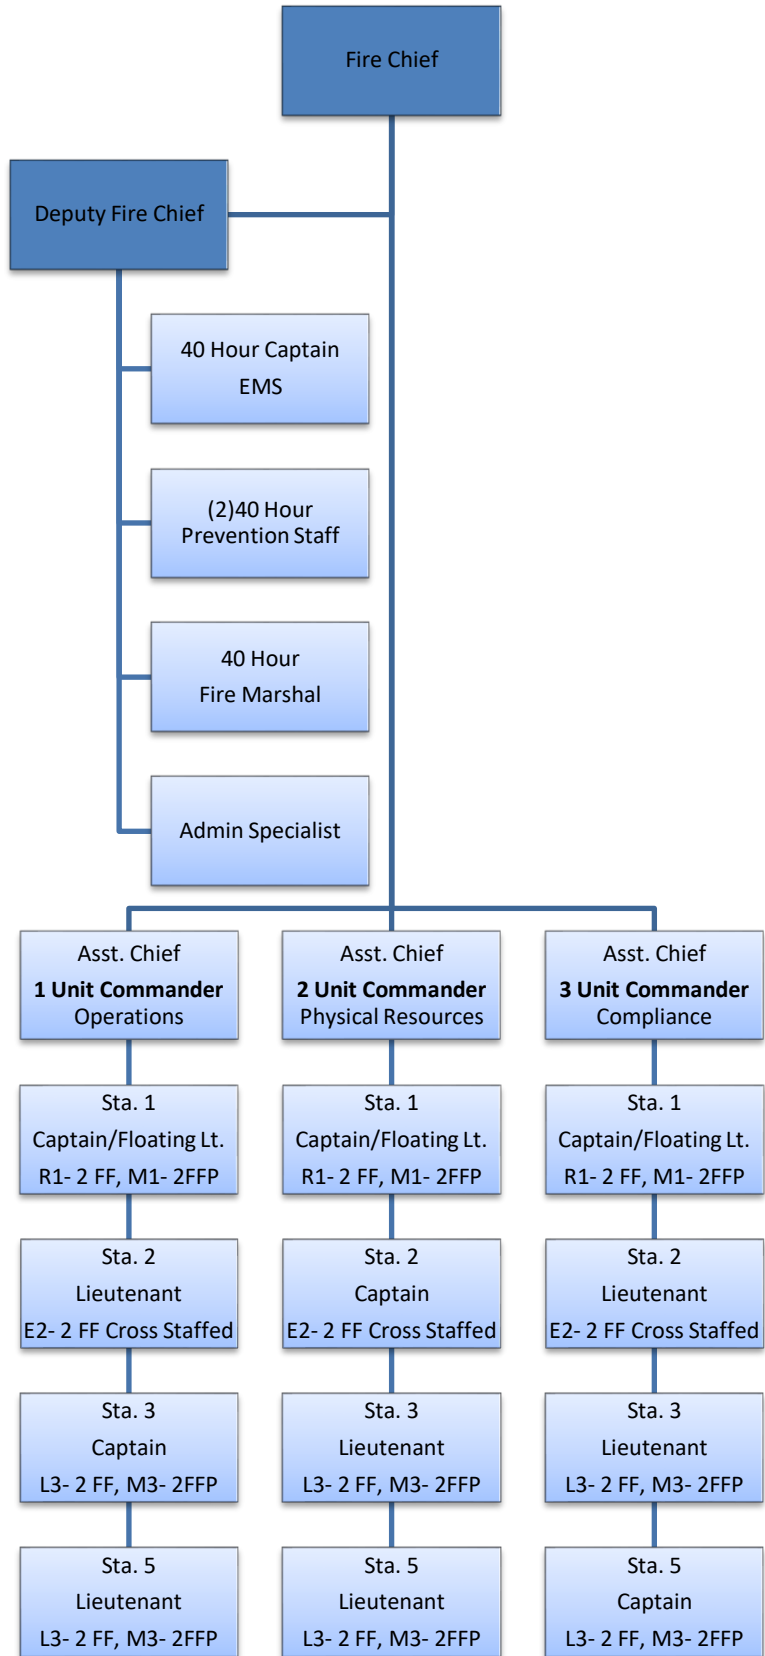

Mission Statement

The mission of the Newark Division of Fire and Emergency Medical Services is to provide a range of programs designed to safely and efficiently protect the lives and property of the citizens of the City of Newark, Ohio from the adverse effects of fires, sudden medical emergencies or exposure to dangerous conditions created either by man or nature.

Vision Statement

The City of Newark Division of Fire will always strive to be a leader among the Fire/Rescue community. Our vision is to provide excellence in our service to our community (customers) by using high standards of training, up-to-date equipment and continual re-evaluation of our services, with the future of the Division and those we want to protect in mind.

2021 Budget

Our budget is largely derived from the General Fund. In 2001 a joint safety level was passed by Newark residents to supplement the budget of both the Police and Fire Divisions. The levy placed an additional 1/2 % income tax on working citizens of Newark and those people who worked inside the city but live elsewhere. This money is dedicated solely to these agencies. The amount of money generated by this levy in 2021 totaled \$7,181,024 million and was split evenly between the Police and Fire Divisions (\$3,590,512 for each Department). Along with the General Fund and the safety levy, we also benefit from various grants for personnel, equipment or programs.

The Newark Fire Department's operating budget for 2021 was \$9,929,376 and includes revenue sources from local taxes, grants, EMS billing, donations and false alarm billings. Specifically, EMS billing generated \$1,830,584 in revenue and the fire department receives 40% of those revenues (\$732,234) to supplement the operating budget. The EMS billing revenue delegated to the fire department is utilized for administration, purchasing ambulances, medical supplies and fire station upgrades.

The total budget handprint reflects a business model of 90% dedicated to personnel and the remaining 10% dedicated to operating costs. Although not ideal, great strides have been made to identify areas to be more efficient and provide the same level of service to the community with periodic staff meetings and a very in depth look at streamlining the budget. The state of the economy along with projected revenue and expenses have initiated a more creative and efficient management strategy allowing staff to look at alternative ways of operating and reducing overall costs.

Funds used for capital improvements are not included in the individual budgets of the various departments/divisions within city government. The city maintains one Capital Improvement Fund and the amount of money provided to each department are decided upon by the Mayor and the City Auditor.

Office of the Mayor

Mayor Jeff Hall became the 68th Mayor of Newark on January 1, 2012. Born and raised in Newark, Mayor Hall is an honor graduate from Newark High School and earned a Bachelor's degree in Accounting with a minor in Information Technology. He also has a Master's degree in

Accounting from The Ohio State University. Prior to serving as Mayor, Jeff was the Newark City Treasurer. Mayor Hall is committed to making safety, education, commerce, and jobs a top priority for the City of Newark. Mayor Hall has surrounded himself with a talented TEAM of dedicated, professional individuals who assist him in strategies that support his vision and overall team concept.

Director of Public Safety, in Memorium

Sadly, former Director Steve Baum Passed away unexpectedly at the end of 2020. Director Steve Baum was appointed on October 26, 2016. Director Baum was hired by the Newark Division of Police on November 22, 1993. He served as both a patrol officer and as a detective. Promoted to Sergeant in 2004, Director Baum was assigned to the Patrol Bureau, the Professional Standards Bureau, and finally the Detective Bureau. After his promotion to Captain in 2010, he served in all three bureaus: Patrol, Detective and as Administrative Bureau Commander. The Director was a USAF veteran who participated in both Operation Desert Shield and Desert Storm. He resided in Heath, Ohio, and is survived by his wife Kelly, their two children and many other extended family members.

Director of Public Safety

Tim Hickman, 59, a Newark native was appointed as the Director of Public Safety on December 6th, 2020. Tim retired in 2017 as a Sergeant in the Newark Police Department but returned to serve with the City's property maintenance department. He spent 32 years in the Division of Police and 2 years in Property Maintenance. During his time at the Division of Police Tim had assignments with the Patrol Bureau, Special Operations Group, training sergeant, firearms instructor and administrative sergeant. He was promoted to Sergeant in 1995. Tim also served in the United States Navy for four years. He resides in Newark with his family.

Administrative Specialist

Tina Wells (twells@newarkohio.net) is the Administrative Specialist for the Division of Fire/EMS. She has been with the city of Newark for 22 years and works very closely with the Fire Chief and Command Staff. She is instrumental in the way the division is managed. Her primary responsibilities include payroll, accounts payables and receivables, budgeting, processing quartermaster, and administrative support to the staff and Fire Prevention Bureau. Tina currently works out of Station 1 and is available to help anyone.

Physical Resources

The Physical Resources Division is managed by Deputy Chief Brandon Metzger (bmetzger@newarkohio.net) who was appointed as the first Deputy Fire Chief in the history of the agency on May 17, 2017. Deputy Chief Metzger has been with the Division for 18 years and in unison with the Fire Chief's position, provides oversight to all functions of the fire department. Effective January 14, 2022, he was appointed to serve as the Interim Fire Chief of the Division.

Deputy Chief Metzger reports directly to the Fire Chief and is responsible for the management of all physical resources, Employee Assistance Programs, Critical Incident Stress Program (CISP), as well as the three (3) Assistant Chief's who manage their respective shifts. Deputy Chief Metzger also manages the EMS Division (Officer), Prevention Bureau, and Arson Investigator. There is a more detailed description within this report relating to each respective responsibility.

Response vehicles:

The fleet saw some expansion and updating in 2021. The Division acquired a brand new 100' Pierce Aerial ladder to replace Tower 1 (26 years old). We also purchased a new Ford Interceptor to replace the Command Unit (SUV) as well as purchasing a new ATV (Polaris Ranger) through donated funds.

Below you can see the status of our fleet:

EMS Vehicle	Year	Mileage	Change from 2020
Medic 1	2015	133,814	18,220
Medic 2	2016	101,364	16,791
Medic 3	2019	28,407	12,681

Medic 4	2012	126,912	9,612
Medic 5	2020	23,100	18,859
Reserve Medic	2012	97,342	3,295
Average	6.33 years	85,156.50 miles	14,535

Fire Apparatus	Year	Mileage	Change from 2020
Rescue 1	2015	58,252	7,752
Ladder 3	2018	31,229	7,072
Engine 2	2004	141,044	6,300
Reserve Ladder 2	2006	115,554	2,854
Ladder 1	2020	1900	Added in 2021-0
Engine 5	2000	6,700	3,600
Average	11.50 years	59,113.17 miles	4,596.33

Capital Improvements:

- Purchased a new 100' Pierce Aerial (Ladder 1)
- Purchased a new 2021 Ford Interceptor to replaced Command SUV
- Put the new RMS hardware/software in service, completed Division training
- Purchased a new ATV for Station 5 through donated funds
- Purchased a new cardiac monitor for EMS unit

Goals for 2022:

- Purchase 1 additional staff vehicle
- Apply for the AFG grant to replace our Self-Contained Breathing Apparatus (SCBA)
- Apply for the SAFER grant requesting funds to hire additional firefighter/paramedics
- Purchase 1 new fire apparatus
- Purchase 2 new Medic units
- Upfit/equip the new 100' Pierce Aerial (Ladder 1)
- Replace rescue extrication tools (battery powered)

Human Resources

The Human Resources Division was managed by Assistant Chief John Clouse (jclouse@newarkohio.net). He was Quality Control of the Division’s Fire Reporting system in addition to assuming the role of Human Resources Division Chief mid-way through the year. Chief Clouse retired on January 8th, 2022 after serving over 33 years in the City of Newark.

In 2021 Chief Clouse reviewed all fire reports to ensure they complied with the State of Ohio’s standards and then uploaded them to the State Fire Marshalls Office on a monthly basis.

Hiring is an ongoing process in the division with a combination of employees retiring and/or leaving for other opportunities. In 2021 four new firefighter/paramedics were hired, with 13 from 2020 completing their probationary period. The chart shows the hiring and retention trends for the division since 2015; these numbers do not include employees who retired, only those who left for other opportunities.

Year	Hired	Left	Loss
2015	5	0	0%
2016	2	3	150%
2017	8	8	100%
2018	9	2	22%
2019	3	4	133%
2020	16	2	13%
2021	4	3	75%
Total	47	22	47%

The city was awarded a grant in 2020 that allowed an increase in strength to 84. Currently there 80 on the roster; six personnel are assigned to administrative duties and 74 assigned to operations. We are currently performing background investigations and processing candidates in order to return to 84.

Shift	1 Unit	2 Unit	3 Unit	Admin
Officers	5	5	4	3
Firefighters	20	21	19	3
Total	25	26	23	6

Total Strength	80
-----------------------	-----------

Operations

The Operations Division is managed by Assistant Chief David Decker (ddecker@newarkohio.net). He has been with the division for 31 years and is currently assigned to 1-Unit.

The Operations Division includes all emergent and non-emergent calls for assistance ranging from fires to various medical emergencies as well as hazardous materials calls. It also includes the management of station districts and response zones, as well as intervention plans for specific emergencies.

The Operations Division has 78 personnel assigned to three 24-hour shifts. Each shift is led by an Assistant Chief, who is responsible for the daily operations and commanding emergencies. Each Assistant Chief is assisted by two Captains and two Lieutenants who are assigned to four stations throughout the city.

The Division currently maintains a minimum staffing of 19 to 21 personnel on duty each day. Station-1 staffs a rescue/engine with three personnel and a transport medic with two personnel. Station-2 cross-staffs a ladder with three personnel, and/or a transport medic with two personnel. Station-3 staffs a ladder truck with three personnel, and a transport medic with two personnel. Station-5 staffs an engine with three personnel and a transport medic with two personnel. The Assistant Chief overseeing the shift is assigned to a command car at Station-1.

The division responded to over 12,347 separate calls for service in 2021 with medical calls accounting for more than 80% of the call volume. NFD responded to 26 working structure fires in the City of Newark during 2021, as well as numerous fires outside of the city, providing assistance to our mutual-aid partners.

Compliance and Information Systems

The Compliance and Information Systems Divisions are managed by Assistant Chief Nick Simmons (nsimmons@newarkohio.net). He has been with the Division for 25 years and is currently assigned to 2 Unit. He holds a Bachelor's of Science Degree from Denison University and has been designated as an Ohio Fire Chief Officer by the Ohio Fire Chief's Association. He is a member of IAFF, IAFC, and Ohio Fire Chief's Association. Chief Simmons is certified as a paramedic, fire instructor and certified fire safety inspector.

Throughout 2021 a continued review and update of the systems manual was completed. Policies have been revised to meet current standards, new policies were added where there was a need, and a number of other policies were completely eliminated.

The Compliance Division monitors the National Fire Protection Agency, National Institute of Safety and Health, and the Occupational Safety and Health Administration to ensure that the Division operates safely and minimizes risk, to a reasonable extent, while reducing liability to the City of Newark.

2021 also brought the total overhaul of the Division’s records management system as well as the computer aided dispatching system (CAD). The former records management system was no longer being supported. Therefore the division switched to ESO for fire, EMS, fleet management, scheduling, inspections and some online training. The CAD system was changed from a Columbus controlled system (operated by the Metropolitan Emergency Communications Center) to one that the Licking County Regional Communications center controls and maintains. All of our in-vehicle hardware was updated or replaced to be compatible with current technology.

Emergency Medical Services

The EMS Division of the Newark Fire Department strives to maintain a progressive and proactive approach to operations, treatment and transport. Our primary mission at Newark Fire is to respond to calls for medical emergencies; however emergency response represents only one component of our service delivery model. The agency also provides education and training to the public within the areas of basic life support, first aid, public health, disaster planning.

In 2021, we responded to 10,150 EMS calls. This represents a 9% increase in runs over 2020. Approximately, 71% of our EMS calls resulted in transport to the hospital, this is an increase of 747 transports from 2020. Increased call volumes continue to make the Newark Fire Department the busiest in Licking County and amongst the busiest in Central Ohio. October 2021 was the busiest month with 987 calls for EMS service, while Friday (923) was the busiest day of service. The hours of 12:00 noon to 1400 hours (2 pm) were the busiest hours for service on a daily basis. Below is the break down per medic unit for 2021 transports.

Vehicle	ALS-1-Newark	ALS-2-Newark	BLS-Newark	Total
M-1	1,724	34	722	2,480
M-2	762	21	269	1,052
M-3	899	25	456	1,380
M-4	15	0	8	23
M-5	894	25	341	1,260
M-6	2	0	2	4
Total	4,296	105	1,798	6,199

The men and women of Newark Fire & EMS are highly skilled and specially trained to provide the best pre-hospital care. Under the direction of our Medical Director, Dr. Ashley Larrimore, the Newark Fire Department delivers service and support 24 hours a day, 365 days a year with a full-time staffing model that currently includes both firefighter/paramedics and firefighter/EMTs.

2021 saw the EMS Division continue to provide a solid platform for the goals defined in the previous year while also developing strategic plans for years to come. Dr. Ashley Larrimore, is continually updating our protocol in coordination with our partners at the Licking Memorial Health Systems and The Ohio State Wexner Medical Center. These updates clarify and simplify our protocols to allow us to better serve the citizens of Newark. February 2020 saw the beginning of an unprecedented pandemic that took everyone by surprise, but the Division was prepared to meet the challenge. As the pandemic continues, the EMS division was forced to go to online training for continuing education and move away from in person training. This move allowed for more participation as personnel were able to receive training from a remote location. June 2021 saw the roll out of the new reporting software. 2021 also marked the first full year of 4 fully staffed medics since the opening of Station 5. The addition provided a little relief for the call volume but by the end of the year, the numbers were back up indicating a need for additional resources. The year also marked an increase in PPE purchasing and EMS supplies in general. The costs associated with everything, specifically EMS supplies increased by almost 12 percent.

For 2022, the EMS division would like to start replacing heart monitors (which are close to being outdated), purchase an additional Lucas Device, start the replacement of our 10 plus year old stair chairs, and potentially start the process for replacing at least one or two medic transport units. By the end of 2022, the division would also like to be back to in person training as well. This of course would be driven by the status of the pandemic and the associated precautions thereof as it relates to the workforce.

Prevention Bureau

This year the Prevention staff was back in the field after spending the year before in the office due to the pandemic. Nearly 800 inspections were completed during 2021.

The Prevention staff disbursed/installed numerous smoke and carbon monoxide detectors within the community.

The Prevention staff works closely with the Property Maintenance Division to identify blighted and dangerous properties. Both divisions work diligently to keep these properties secured which is one key aspect of risk management not only to our community but to our firefighters and other first responders. Both divisions will continue to work together in licensing rooming houses, gaming parlors, and marijuana dispensaries.

We also continue to have a close working relationship with the Building Code Department. Both departments worked together on some very large projects within the City. The bureau also assisted the State Fire Marshal with numerous inspections and fire investigations throughout the year.

We continue to work to update the business information in our database and cross reference the information in the CAD database. We hope to streamline this information with both entities so our databases of business names are updated more frequently, are more accurate to be able to provide more detailed information to responding personnel. In the near future Prevention will start to transition over to the ESO reporting software when additional modules are updated.

The bureau strives to make the City of Newark a safer place to live and work. Our goals for 2022 are:

- Increase prevention education
- Increase fire inspections
- Align database information and CAD information

Investigation/Arson Bureau

Tim Smith has been employed with the City of Newark for over 34 years. He is a Firefighter/Paramedic, Certified Fire Safety Inspector (C.F.S.I.), Certified Fire Investigator (C.F.I.) with the International Association of Arson Investigators (I.A.A.I.), SCUBA Diver/Reserve Sworn Police Officer with the City of Newark Police Department. There were 134 investigations in 2021 with (3) M-1 Arson conviction and (2) Criminal Trespass convictions. There were (2) referrals to the Juvenile Fire Setter Program through the State Fire Marshal's

Office.

2021 NFD Statistics

Total Combined Calls for Service = 12,374

Total Calls for Service - Fire = 2224 (18%)

Total Calls for Service - EMS = 10,150 (82%)

The above data was compiled using data from three (3) different sources due to the change in records management systems. On the following pages are response statistics that involve multiple unit responses in a myriad of combinations. The statistics below are more representative of how NFD deploys apparatus. Therefore, they are a true measure of how many times vehicles are responding when a call for service is made.

Fire Statistics

*Note that total fire runs include calls for service where a fire and EMS report were made for the same incident number (i.e. EMS assists, Accidents with injuries, Assist Invalid etc.)
