Letter from the Fire Chief

2022 yielded the highest call volume in the department's history. The hard-working men and women of the Newark Fire Department responded to a total of 12,585 calls for emergency service. The department also participated in numerous public relation events, public education events, and entered into a partnership with the Newark Boys and Girls Club.

The Newark Fire Department continued to "answer the call" through expanded challenges associated with staffing shortages, increased call volume, and increased consumption of resources. We were able to continue providing the highest level of service to our community while ensuring that the safety and welfare of our personnel remained paramount.

This year the division was faced with numerous retirements and/or employee separations which afforded an opportunity for promotion. In 2022, numerous individuals were promoted within the ranks, including the positions of Fire Chief and Deputy Chief. Chief Metzger was officially sworn in as the agencies 13th Fire Chief on July 5th after serving in the Interim Fire Chief capacity since January 14th. Deputy Chief Vermaaten was sworn in as the agencies second-ever Deputy Chief on November 22 along with Assistant Chief Alan Ashcraft, Captain Todd Smith, and Lieutenant Brandon Turner.

In closing, I hope that the information provided in this 2022 Annual Report will provide the necessary information about our department operations and administration. If you have any questions or concerns, please feel free to contact department headquarters at (740) 670-7650, send me a email bmetzger@newarkohio.net or go to our website <https://newarkohiofire.org>.

Respectfully,

A handwritten signature in black ink, appearing to be 'B Metzger', written in a cursive style.

Fire Chief

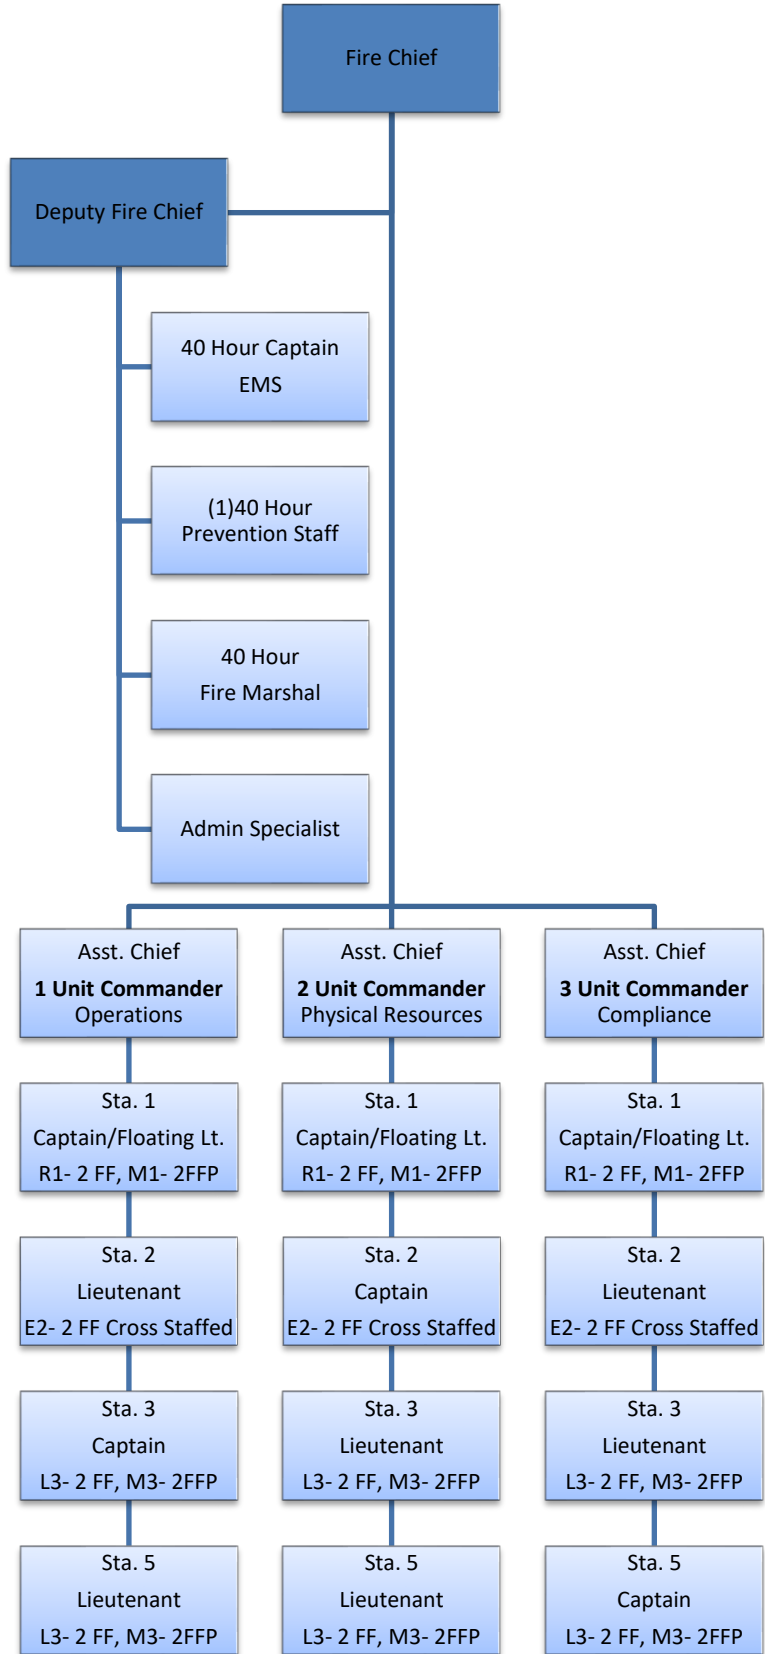

Mission Statement

The mission of the Newark Division of Fire and Emergency Medical Services is to provide a range of programs designed to safely and efficiently protect the lives and property of the citizens of the City of Newark, Ohio from the adverse effects of fires, sudden medical emergencies or exposure to dangerous conditions created either by man or nature.

Vision Statement

The City of Newark Division of Fire will always strive to be a leader among the Fire/Rescue community. Our vision is to provide excellence in our service to our community (customers) by using high standards of training, up-to-date equipment and continual re-evaluation of our services, with the future of the Division and those we want to protect in mind.

2022 Budget

Our budget is largely derived from the General Fund. In 2001 a joint safety levy was passed by Newark residents to supplement the budget of both the Police and Fire Divisions. The levy placed an additional 1/2 % income tax on working citizens of Newark and those people who worked inside the city but live elsewhere. This money is dedicated solely to these agencies. The amount of money generated by this levy in 2022 totaled \$7,790,774 million and was split evenly between the Police and Fire Divisions (\$3,895,387 for each department). Along with the General Fund and the safety levy, we also benefit from various grants for personnel, equipment or programs.

The Newark Fire Department's operating budget for 2022 was \$10,873,538 and includes revenue sources from local taxes, grants, donations and false alarm billings. EMS billing revenue generated \$1,935,187 in 2022. Although the fire department doesn't directly receive any of this revenue for operations, 37% is allocated to capital expenses associated with the acquisition of real property, construction and maintenance of fire and EMS stations and physical facilities. An additional 9% of the EMS billing revenue is allocated towards debt services associated with the acquisition from time to time of EMS and Fire transports (Resolution 19-33).

The total budget handprint reflects a business model of 87% dedicated to personnel and the remaining 13% dedicated to operating costs. Although not ideal, great strides have been made to identify areas to be more efficient and provide the same level of service to the community with periodic staff meetings and a very in depth look at streamlining the budget. The state of the economy along with projected revenue and expenses have initiated a more creative and efficient management strategy allowing staff to look at alternative ways of operating and reducing overall costs.

Funds used for capital improvements are not included in the individual budgets of the various departments/divisions within city government. The city maintains one Capital Improvement Fund and the amount of money provided to each department are decided upon by the Mayor and the City Auditor.

Office of the Mayor

Mayor Jeff Hall became the 68th Mayor of Newark on January 1, 2012. Born and raised in Newark, Mayor Hall is an honor graduate from Newark High School and earned a Bachelor's degree in Accounting with a minor in Information Technology. He also has a Master's degree in Accounting from The Ohio State University. Prior to serving as Mayor, Jeff was the Newark City Treasurer. Mayor Hall is committed to making safety, education, commerce, and jobs a top priority for the City of Newark. Mayor Hall has surrounded himself with a talented TEAM of dedicated, professional individuals who assist him in strategies that support his vision and overall team concept.

Director of Public Safety

Tim Hickman, 59, a Newark native was appointed as the Director of Public Safety on December 6th, 2020. Tim retired in 2017 as a Sergeant in the Newark Police Department but returned to serve with the City's property maintenance department. He spent 32 years in the Division of Police and 2 years in Property Maintenance. During his time at the Division of Police Tim had assignments with the Patrol Bureau, Special Operations Group, training sergeant, firearms instructor and administrative sergeant. He was promoted to Sergeant in 1995. Tim also served in the United States Navy for four years. He resides in Newark with his family.

Administrative Specialist

Tina Wells (twells@newarkohio.net) is the Administrative Specialist for the Division of Fire/EMS. She has been with the city of Newark for 23 years and works very closely with the Fire Chief and Command Staff. She is instrumental in the way the division is managed. Her primary responsibilities include payroll, accounts payables and receivables, budgeting, processing quartermaster, and administrative support to the staff and Fire Prevention Bureau. Tina currently works out of Station 1 and is available to help anyone.

Physical Resources

The Physical Resources Division is managed by Chief Brandon Metzger (bmetzger@newarkohio.net). Brandon Metzger, 40, was hired by the City of Newark in 2003 as a firefighter. He will serve as the 13th Fire Chief. He has held the rank of Lieutenant, Captain, and in May 2017, he was appointed as the first Deputy Fire Chief in the history of the agency.

Brandon is a United States Army veteran. His formal studies include EMS/Fire Science, as well as Public Safety Management. Brandon is a firefighter/paramedic, EMS and Fire Instructor, State-Certified Fire Safety Inspector and CPR Instructor. Throughout his tenure with the Newark Fire Department, he has served as the Executive Officer in charge of the Emergency Medical Services Division, Human Resources/Compliance Division, as well as the Physical Resources Division.

Brandon is a graduate of the Ohio Fire Executive Program (OFE) and is credentialed through the Ohio Fire Chief's Association (OFC). He is also a member of the International Association of Fire Chief's (Great Lakes Division) and the Ohio Society of Fire Service Instructors (OSFSI). Brandon currently serves on the Central Ohio Technical College advisory committee for the Fire Science Program and works with The Boys and Girls Club of Newark.

Response vehicles:

2022 provided little to no change in the status of our fleet with regard to new purchases. Recently, city council and the administration has legislated the purchase of two new medic units and we have ongoing discussions on the overall status of our "rolling stock". Various economics factors such as supply and demand, increasing costs, and estimated build time have impacted this area of strategic planning and procurement. We plan on ordering two (2) additional transport units in late 2023, early 2024. Below you can see the ratings associated with the status of our fleet

EMS Vehicle	Year	Rating	Plan
Medic 1	2015	-	Replace
Medic 2	2016	+/-	Replace
Medic 3	2019	+	Sustain
Medic 4	2012	-	Service out
Medic 5	2020	+	Sustain
Reserve Medic	2012	-	Service out
Average	7+ years of service	-/+	

Fire Apparatus	Year	Rating	Plan
Rescue 1	2015	+/-	Phase to reserve
Ladder 3	2018	+	Sustain
Ladder 2	2006	-/+	Sustain
Ladder 1	2020	+	Sustain
Engine 5	2000	+/-	Phase to reserve
Average	12 + years of service		

Goals for 2023:

- Purchase 2 additional staff vehicles
- Apply for the AFG grant to add SCBA cascade systems to Stations 2, 3, and 5.
- Order 2 new fire apparatus
- Purchase 2 new Medic units
- Replace various tools and power equipment

Human Resources

The Human Resources Division was managed by Deputy Chief Doug Vermaaten. Doug has been a member of the Newark Division of Fire & EMS since 1997, promoting through the ranks to Deputy Fire Chief in November, 2022. Doug earned an Associates of Applied Science degree in Fire & Emergency Services from Hocking College and completed the Ohio Fire Academy’s Fire Officer I & II programs. Doug is a credentialed Fire Officer through the Centers for Public Safety Excellence. Doug oversees the Human Resources Division and is the Executive Fire Officer of the fire department. Doug holds certifications as an Ohio Fire & EMS Instructor and Instructs Hazardous Materials response. Doug is the past team leader and member of the Licking County HAZ-MAT Team and serves as a committee member on the Licking County Local Emergency Planning Committee.

Hiring is an ongoing process in the division with a combination of employees retiring and/or leaving for other opportunities. In 2021 four new firefighter/paramedics were hired, with 13 from 2020 completing their probationary period. The chart shows the hiring and retention trends for the division since 2015; these numbers do not include employees who retired, only those who left for other opportunities.

Year	Hired	Left	Loss
2015	5	0	0%
2016	2	3	150%
2017	8	8	100%
2018	9	2	22%
2019	3	4	133%
2020	16	2	13%
2021	4	3	75%
Total	47	22	47%

The city was awarded a grant in 2020 that allowed an increase in strength to 84. Currently there 80 on the roster; six personnel are assigned to administrative duties and 74 assigned to operations. We are currently performing background investigations and processing candidates in order to return to 84.

Shift	1 Unit	2 Unit	3 Unit	Admin
Officers	5	5	4	3
Firefighters	20	21	19	3
Total	25	26	23	6

Total Strength	80
-----------------------	-----------

Operations

The Operations Division was managed by Assistant Chief David Decker (ddecker@newarkohio.net). He was part of the division for 32 years and retired new years day 2023.

The Operations Division includes all emergent and non-emergent calls for assistance ranging from fires to various medical emergencies as well as hazardous materials calls. It also includes the management of station districts and response zones, as well as intervention plans for specific emergencies.

The Operations Division has 78 personnel assigned to three 24-hour shifts. Each shift is led by an Assistant Chief, who is responsible for the daily operations and commanding emergencies. Each Assistant Chief is assisted by two Captains and two Lieutenants who are assigned to four stations throughout the city.

The Division currently maintains a minimum staffing of 19 to 21 personnel on duty each day. Station-1 staffs a rescue/engine with three personnel and a transport medic with two personnel. Station-2 cross-staffs a ladder with three personnel, and/or a transport medic with two personnel. Station-3 staffs a ladder truck with three personnel, and a transport medic with two personnel. Station-5 staffs an engine with three personnel and a transport medic with two personnel. The Assistant Chief overseeing the shift is assigned to a command car at Station-1.

The division responded to over 12,585 separate calls for service in 2022 with medical calls accounting for 80% of the call volume. NFD responded to 26 working structure fires in the City of Newark during 2022, as well as numerous fires outside of the city, providing assistance to our mutual-aid partners.

Compliance and Information Systems

The Compliance and Information Systems Divisions are managed by Assistant Chief Nick Simmons (nsimmons@newarkohio.net). He has been with the Division for 26 years and is currently assigned to 2 Unit. He holds a Bachelor's of Science Degree from Denison University and has been designated as an Ohio Fire Chief Officer by the Ohio Fire Chief's Association. He is a member of IAFF, IAFC, and Ohio Fire Chief's Association. Chief Simmons is certified as a paramedic, fire instructor and certified fire safety inspector.

Throughout 2022 a comprehensive review and update of the systems manual was completed. Policies have been revised to meet current standards, new policies were added where there was a need, and a number of other policies were completely eliminated.

The Compliance Division monitors the National Fire Protection Agency, National Institute of Safety and Health, and the Occupational Safety and Health Administration to ensure that the Division operates safely and minimizes risk, to a reasonable extent, while reducing liability to the City of Newark.

After the 2021 replacement of all our records management software and hardware, 2022 brought some refinement to the systems. Automatic vehicle locations were adjusted, mobile internet devices were upgraded and reports were designed to allow staff to extract meaningful data from the new records management system.

Emergency Medical Services

The EMS Division of the Newark Fire Department strives to maintain a progressive and proactive approach to operations, treatment and transport. Our primary mission at Newark Fire is to respond to calls for medical emergencies; however emergency response represents only one component of our service delivery model. The agency also provides education and training to the public within the areas of basic life support, first aid, public health, disaster planning.

In 2022, we responded to 10,070 EMS calls. This represents a 1% decrease in EMS runs over 2021. Approximately, 61% of our EMS calls resulted in transport to the hospital; this is a decrease of 49 transports from 2021. Cal volume continues to make the Newark Fire Department the busiest in Licking County and amongst the busiest in Central Ohio. January 2022 was the busiest month with 937 calls for EMS service, while Wednesday (944) was the busiest day of service. The hours of 08:00 to 2200 hours (10 pm) were the busiest hours for service on a daily basis. Below is the break down per medic unit for 2022 transports.

Vehicle	ALS-1-Newark	ALS-2-Newark	BLS-Newark	Total
M-1	1389	27	742	2158
M-2	655	12	274	941
M-3	937	22	415	1373
M-4	230	9	108	347
M-5	936	21	367	1324
R-1	2	0	4	6
Total	4149	91	1910	6150

The men and women of Newark Fire & EMS are highly skilled and specially trained to provide the best pre-hospital care. Under the direction of our Medical Director, Dr. Ashley Larrimore, the Newark Fire Department delivers service and support 24 hours a day, 365 days a year with a full-time staffing model that currently includes both firefighter/paramedics and firefighter/EMTs.

2022 saw the EMS Division continue to provide a solid platform for the goals defined in the previous year while also developing strategic plans for years to come. Dr. Ashley Larrimore, is continually updating our protocol in coordination with our partners at the Licking Memorial Health Systems and The Ohio State Wexner Medical Center. These updates clarify and simplify our protocols to allow us to better serve the citizens of Newark. February 2020 saw the beginning of an unprecedented pandemic that took everyone by surprise, but the Division was prepared to meet the challenge. As the pandemic slowly ended, the EMS division was able to return to in person training for continuing education. In the fall of 2022, the EMS division started online education offering refresher class training to both EMTs and Paramedics through the Fire Rescue Academy, our online subscription service. 2022 saw the adjustments to run districts in an effort to reduce the burden on medic 1. The initial numbers showed a decrease in their runs but they are still the busiest medic in the city (2158 transports). Over the last several years, the EMS supply budget has been the same. 2023 will mark the first time an increase was requested due to the continual increase in supplies and shortages of supplies. The EMS Division has added a new vendor in efforts to be more studious with the supply budget.

During 2022, the EMS division replaced 4 stair chairs that were 10 plus years old and purchased a fifth Lucas device (an automatic chest compression device). Late in 2022, a new medic was ordered. The unit will replace the current medic 1. Unfortunately, due to supply issues and additional orders prior to ours, the medic is not scheduled to go online until June of 2024. This makes the delivery likely to be late 2024. With the current process of placing our front line medics into reserve status, once new units arrive, this will not happen with medic 1. The current 4-6 year replacement window needs to be adjusted to 18-24 months. This will ensure that we have suitable reserve medics for our citizens and not 11 plus year old medics as we do now.

For 2023, the EMS division has requested a monitor, a fifth power cot, and AV equipment for the station 3 training room. All of these were approved and ordered. Again, lead times are drawn out for all items with all expected by the end of the year. February brought the approval for another new medic for station 2. As with the new medic 1, the delivery is not expected until 2025 at the earliest. This will most definitely put a strain on our aging fleet until its delivery. 2023 training will include PALS refresher, CPR recertification, active shooter training, RSI class, and continuing EMT and Paramedic refresher classes online. Our protocol will continue to be updated and released as needed, too. 2023 has already indicated that we will not be slowing down anytime soon.

Prevention Bureau

During the 2022 year, the Prevention staff continued to work in the field in a post-pandemic capacity. 804 inspections were completed during 2022 with 1165 violations.

The Prevention staff disbursed/installed numerous smoke and carbon monoxide detectors within the community.

The Prevention staff works closely with the Property Maintenance Division to identify blighted and dangerous properties. Both divisions work diligently to keep these properties secured which is one key aspect of risk management not only to our community but to our firefighters and other first responders. Both divisions will continue to work together in licensing rooming houses, gaming parlors, and marijuana dispensaries.

We also continue to have a close working relationship with the Building Code Department. Both departments worked together on some very large projects within the City. The bureau also assisted the State Fire Marshal with numerous inspections and fire investigations throughout the year.

We continue to work to update the business information in our database and cross reference the information in the CAD database. We hope to streamline this information with both entities so our databases of business names are updated more frequently, are more accurate to be able to provide more detailed information to responding personnel.

The bureau strives to make the City of Newark a safer place to live and work. Our goals for 2023 are:

- Increase prevention education
- Increase fire inspections
- Align database information and CAD information

Investigation/Arson Bureau

Tim Smith has been employed with the City of Newark for over 35 years. He is a Firefighter/Paramedic, Certified Fire Safety Inspector (C.F.S.I.), Certified Fire Investigator (C.F.I.) with the International Association of Arson Investigators (I.A.A.I.), SCUBA Diver/Reserve and a Sworn Police Officer with the City of Newark Police Department. There were 142 investigations in 2022 with 2 convictions for aggravated arson, 3 known convictions for Arson-Felony, 1 conviction for Criminal Trespass, 1 conviction for Criminal Mischief, 1 conviction for Theft (less than \$1,000.00), 1 conviction for Intimidation of a Witness. There were multiple convictions for Arson-Misdemeanor and multiple convictions for Criminal Trespass. There are also multiple pending cases from 2022 that have not gone to trial yet.

2022 NFD Statistics

Total Combined Calls for Service = 12,585

Total Calls for Service - Fire = 2515 (20%)

Total Calls for Service - EMS = 10,070 (80%)

On the following pages are response statistics that involve multiple unit responses in a myriad of combinations. The statistics below are more representative of how NFD deploys apparatus. Therefore, they are a true measure of how many times vehicles are responding when a call for service is made.

Fire Statistics

*Note that total fire runs include calls for service where a fire and EMS report were made for the same incident number (i.e. EMS assists, Accidents with injuries, Assist Invalid etc.)
